Ergonomic Design for Balance & Stability

*Introducing index finger shooting to
mobile photography*

People say the best camera is the one that is always with you – and for most of us that's our phone. Providing that feeling of familiarity and control when holding your camera, ProGrip closes the gap between mobile and camera photography.

Charge & Shoot Simultaneously All Day Long

Built-in A-Grade Samsung Battery Cells supported by Fast Wireless Charging to keep you shooting up to 3 times more footage in a day*.

*Varies by phone model

Easy Switch Landscape/Portrait Mode

Switch hassle-free between landscape and portrait without changing your grip. 90° rotation on smartphone clamp accommodates to selfies, vlogging, and storytelling on-the-go.
